Chapter 1

Prerequisites

Chapter 2

Introduction

The present briefing aims to provide a comparison of the COVID-19 impacts on aviation in different parts of the world. The regions covered herein are Europe, Brazil, Thailand, and Singapore.

Chapter 3

Scope

The following airports are covered by this briefing:

3.1 Europe airports

EDDF, EDDM, EGLL, EHAM, LEMD, LFPG, LIRF, and LSZH

3.2 Brazil airports

SBBR, SBCF, SBCT, SBFL, SBGL, SBGR, SBKP, SBPA, SBRF, SBRJ, SBSP, and SBSV

3.3 Thailand airports

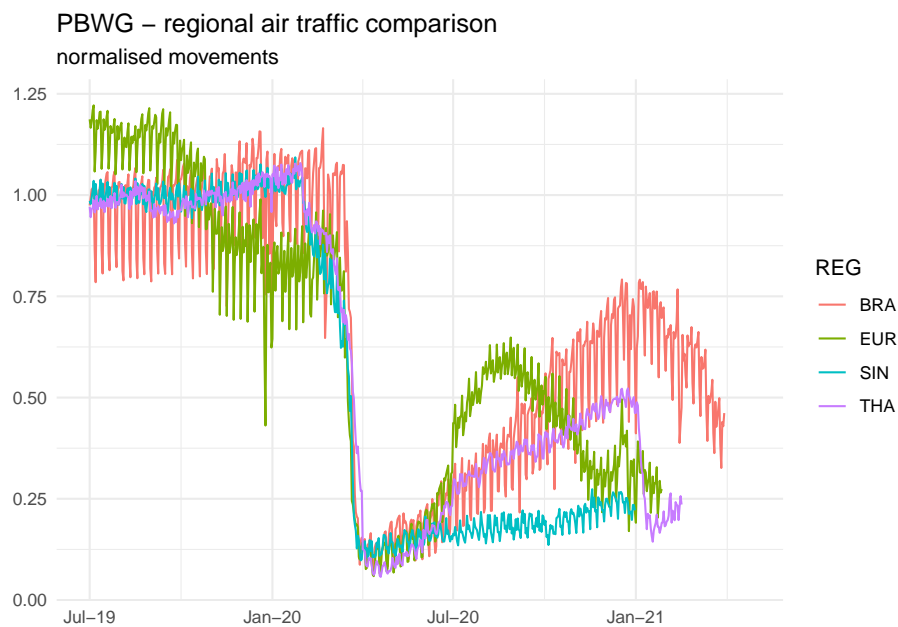

VTBD, VTBS, VTCC, and VTSP

3.4 Singapore airports

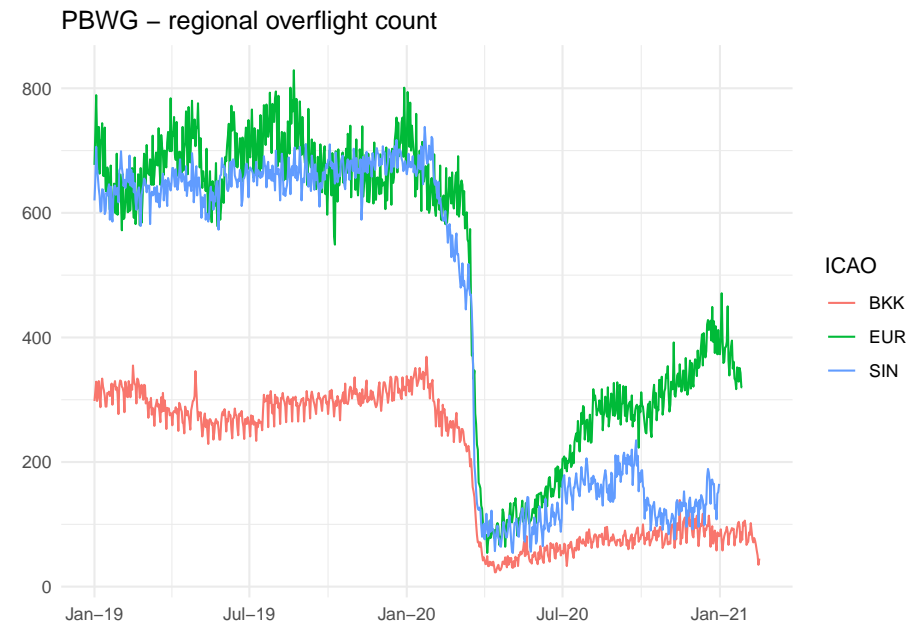

WSSS

Chapter 4

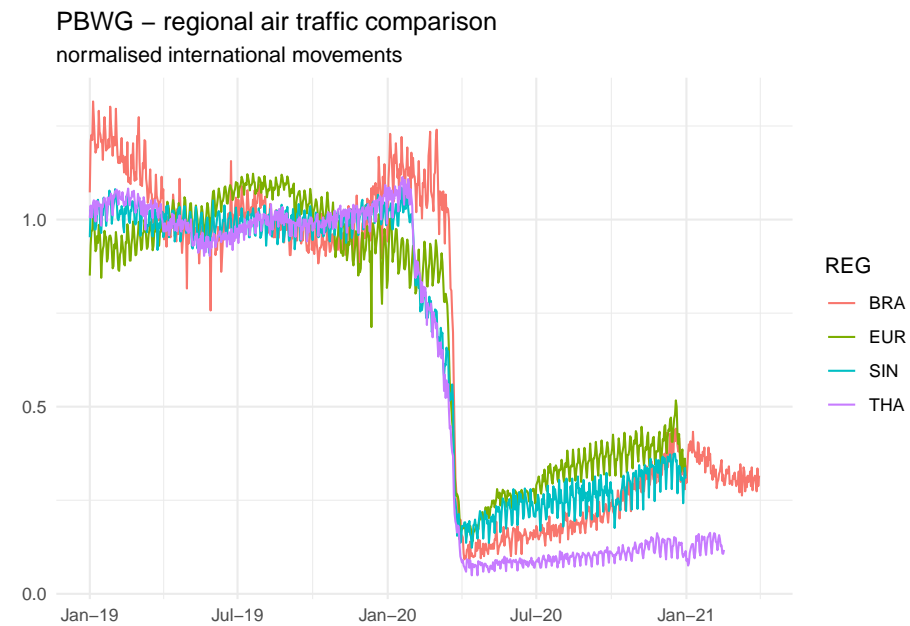

Overview comparison

4.1 Overflights

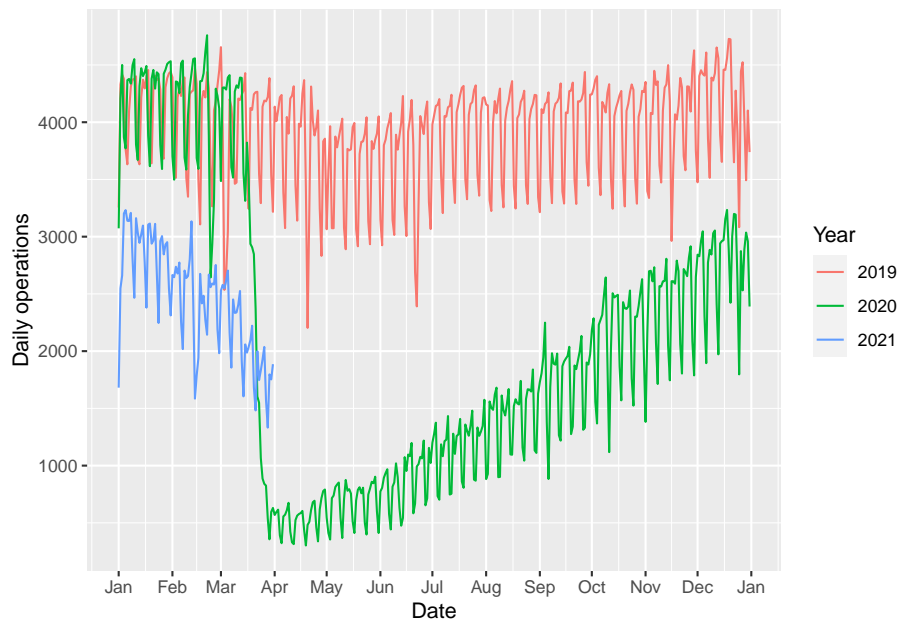

4.2 International traffic

Chapter 5

Region level breakdown

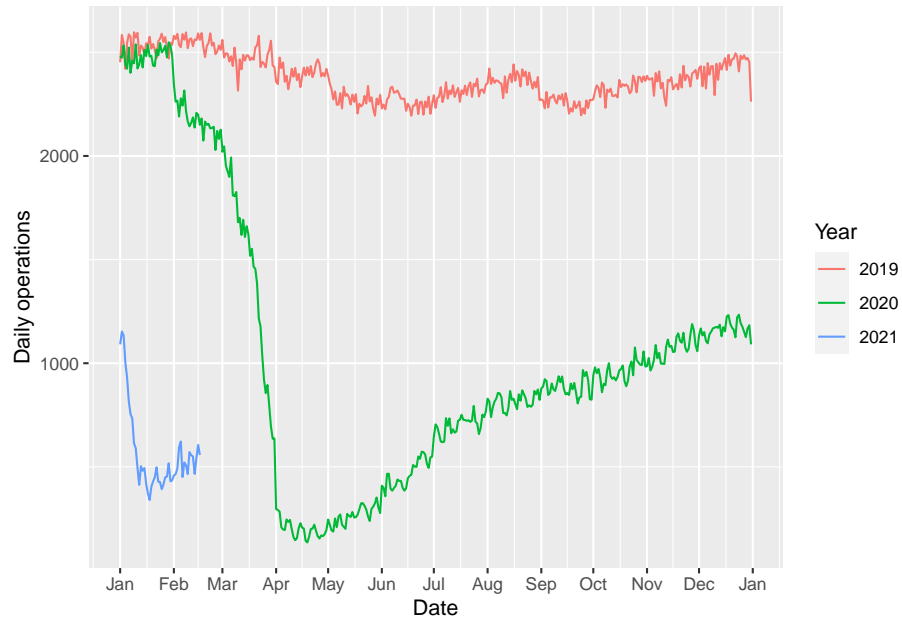

5.1 Brazil

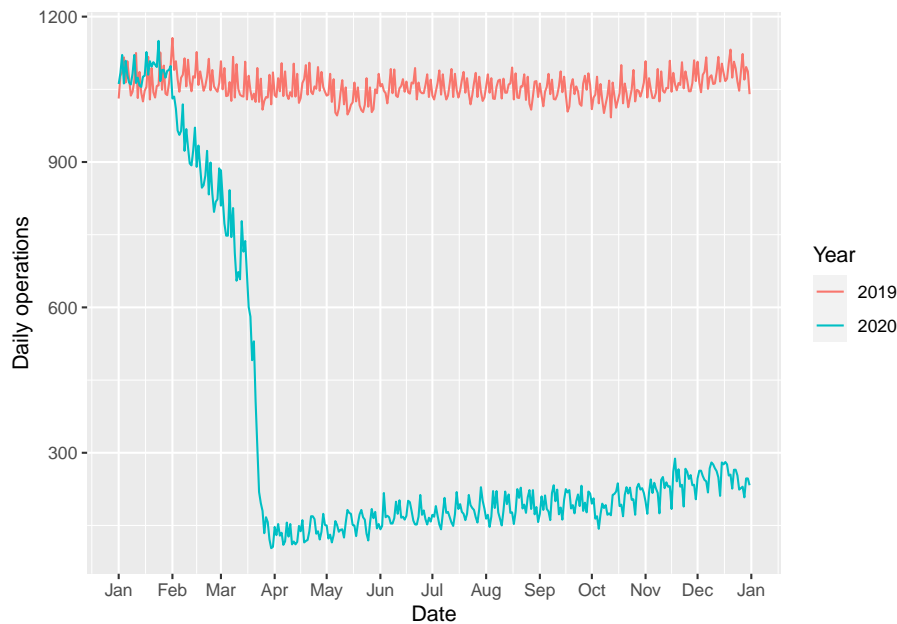

5.2 Europe

5.3 Thailand

5.4 Singapore

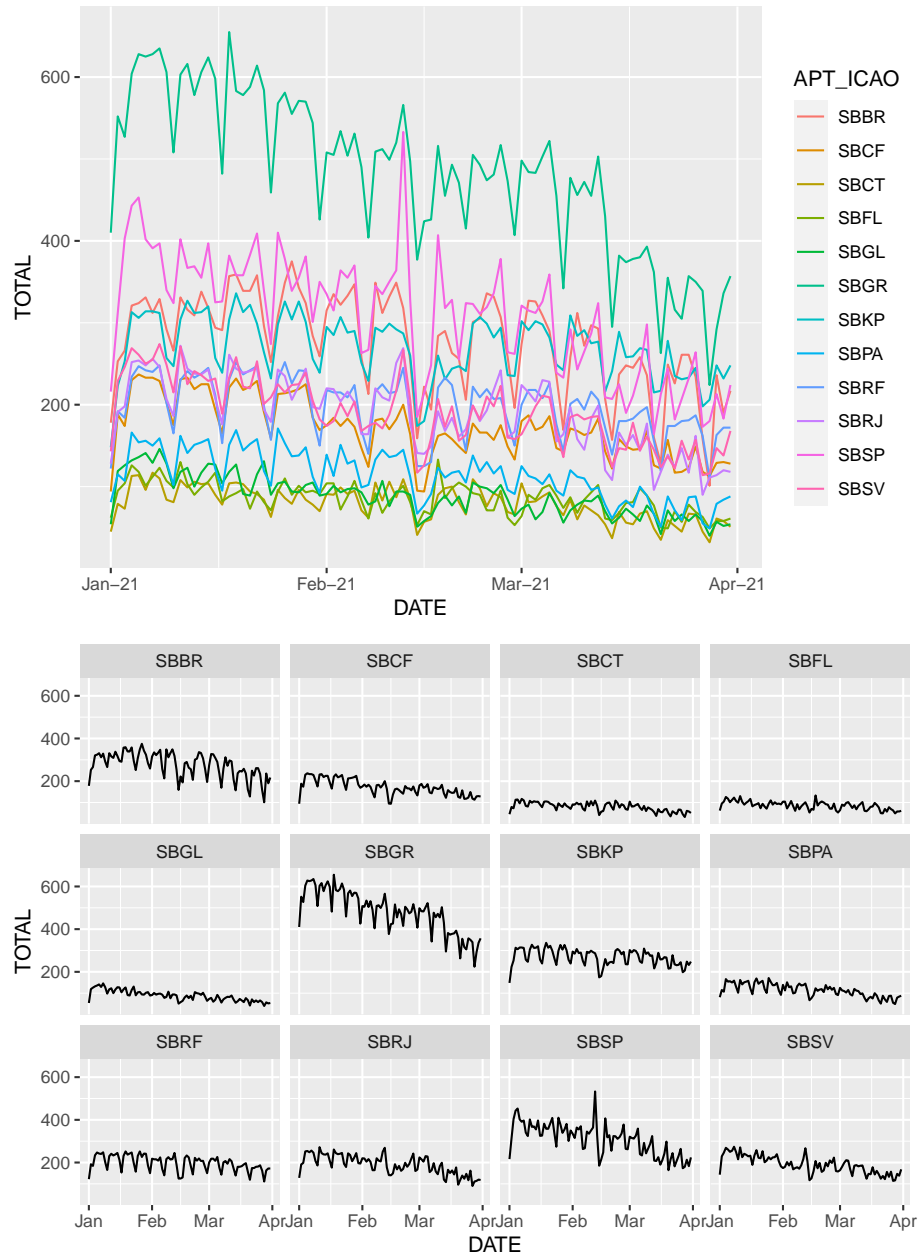

Chapter 6

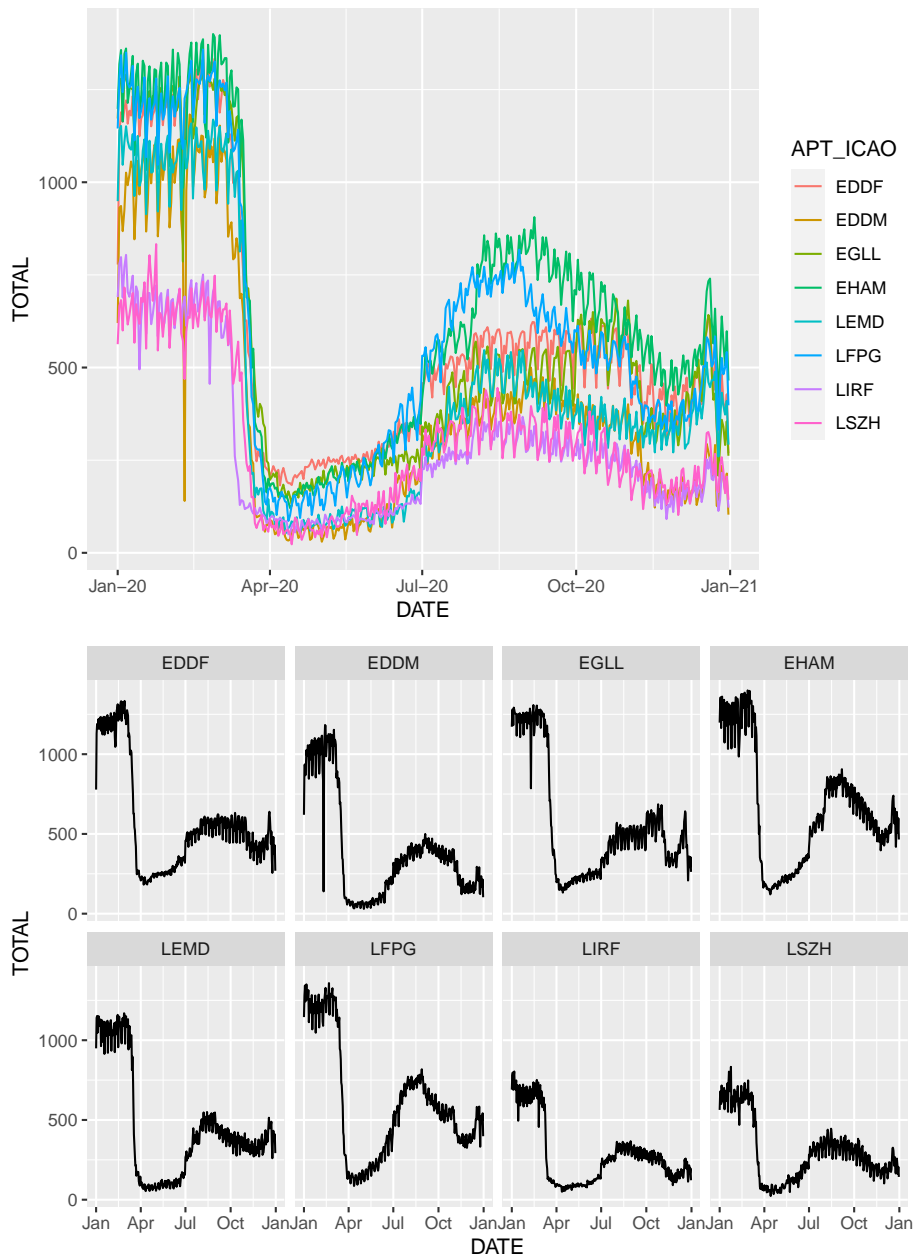

Airport level breakdown

Except for Singapore, which has only one airport in the study, it is possible to look the different effects on individual airports within each region.

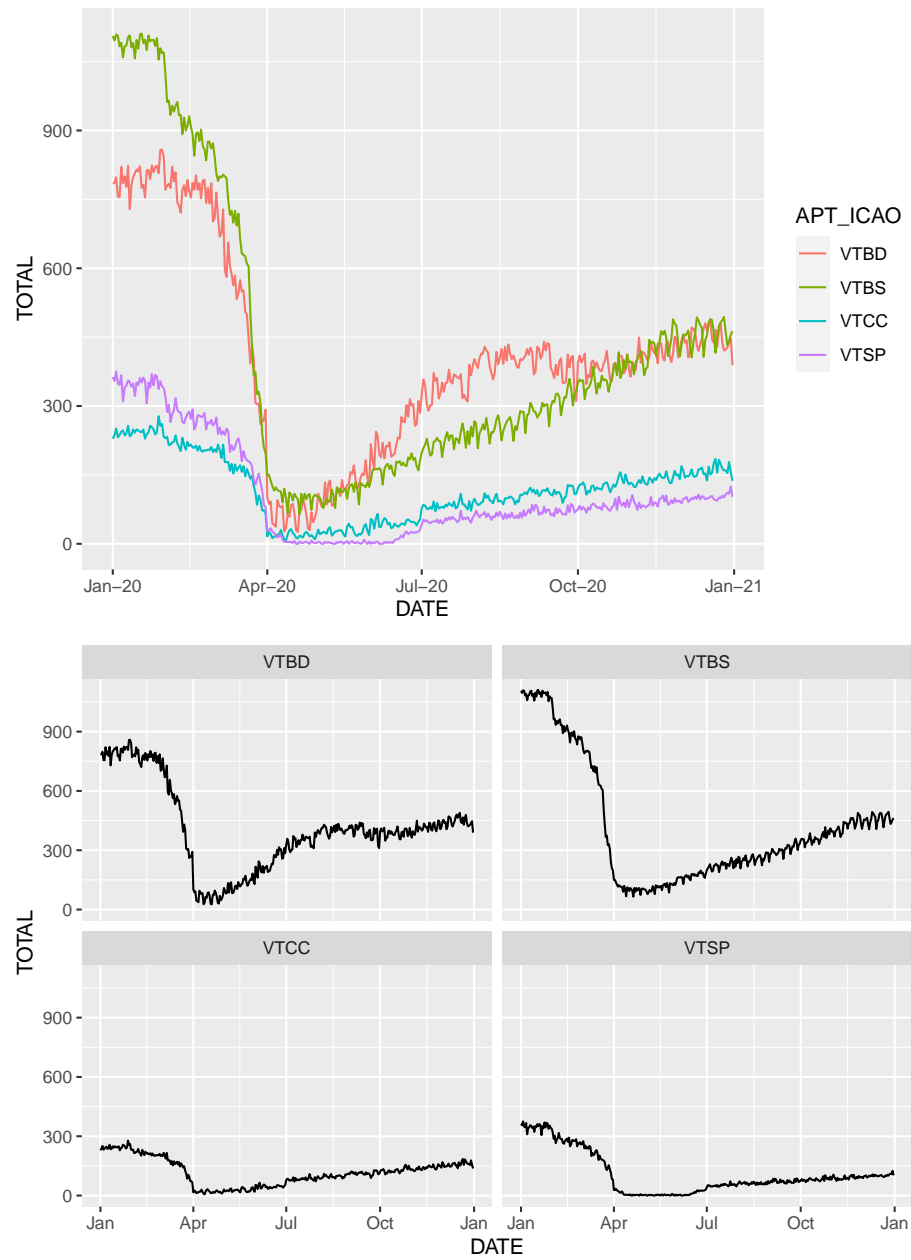

6.1 Brazil airports

6.2 Europe airports

6.3 Thailand airports

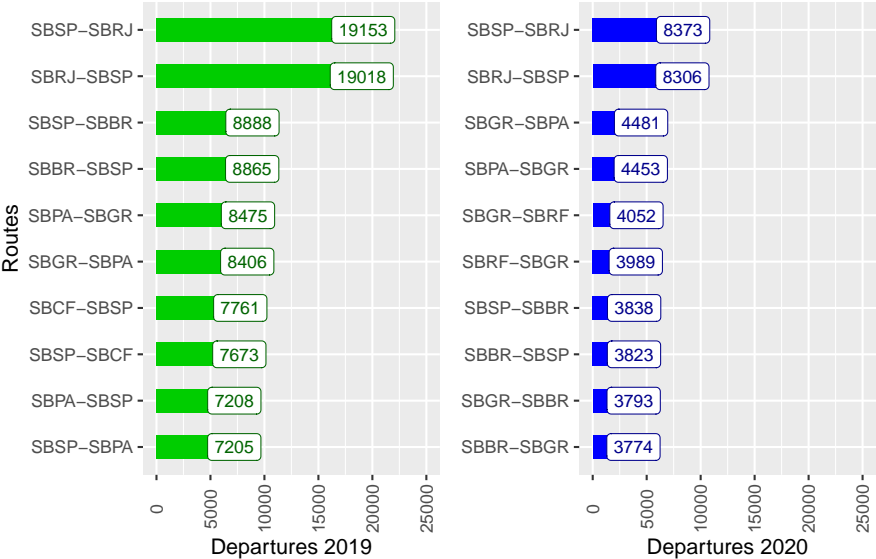

Chapter 7

Top city pairs

7.1 Brazil routes

Top 10 routes per year

7.2 Europe routes

Top 10 routes per year
